This episode from the series RenegadePress.com tackles the serious health issues around **anorexia**, and in particular the seductive nature of websites which encourage control of eating as a way to deal with parental control issues. Some light relief is provided by a South Asian Canadian boy having a date arranged for him by his parents. The characters and story are engaging and will hold the attention of a teenage audience. The production quality is excellent, reflecting its television origins. NOTE: Contains some harrowing scenes of a young woman in an advanced state of **anorexia**.
