

# SWIS | SETTLEMENT WORKERS IN SCHOOLS

## 2020-21 SCHOOL ASSIGNMENTS

These assignments are to provide general guidelines as to who to initially contact for SWIS services at your school. Note that SWIS also provide support which is language specific so school assignments are flexible.

Some of your schools may not have many immigrant students. Assigning a SWIS Worker to your school means that this SWIS Worker can be your first point of contact and may check in from time to time to see if they can be of assistance. If you need support for a specific language, you may also contact another SWIS or Multicultural Worker instead of the Settlement Worker assigned to your school.

SWIS workers are funded through a grant from Immigration, Refugees and Citizenship Canada (IRCC). Though it is not part of our mandate to assist Canadian Citizens or those on Work/Study-permits, the reality is that these individuals may still have complex settlement needs and we will assist as much as possible. For International students, please contact the International Department at the Langley School Board office. For further clarification or information about your SWIS worker, please contact Joanne Neveux, District Principal at 778-736-0716.

### SWIS DEPARTMENT
