

Administrative Procedure 166

PANDEMIC RESPONSE

Background

The District, in cooperation with the provincial government and the Fraser Health Authority, supports efforts to minimize a pandemic and its disruption to the operational activities of the District. Administrators and staff are expected to ensure the most effective and efficient use of resources for the maximum benefit and protection of students, staff and facilities.

Procedures

1. In the event that the Fraser Health Authority identifies evidence of a significant infectious disease outbreak in the region, the Superintendent has the authority to make final decisions regarding crisis response. When a state of emergency is declared by a Ministry of the Government, that particular Ministry will have such authority.
2. The Superintendent will communicate the District's Pandemic Response Plan to ensure that members of administration and staff are familiar with roles and processes in the event of an outbreak.
3. In accordance with directives emanating from federal and provincial authorities and the consequent circumstances that may prevail, the Superintendent may temporarily suspend the District's current practices and operating guidelines.
