

Administrative Procedure 303

ADMISSION OF INTERNATIONAL STUDENTS

Background

The District believes that the inclusion of International students in District schools is part of a positive and supportive diversified school culture, which benefits local students and citizens by:

- Increasing intercultural and international understanding.
- Generating supplementary revenue which benefits all schools and District programs; and
- Increasing enrolment in all areas of the District.

The District will levy fees and charges for the International Student Program. This program is to allow for students to join our schools with the intent to eventually graduate or simply to have a positive, short-term Canadian experience.

The District directs that any provision within schools for International students will not be at the expense of children resident in the District with respect to space or additional structural support.
