# STUDENT CODE OF CONDUCT

### Background

The Langley School District is committed to fostering safe and caring schools that promote mutual respect, cooperation, and social responsibility, and support optimal learning. Trauma Informed Practices and Procedures promote the creation and maintenance of safe, inclusive, equitable, welcoming, and nurturing school environments.

District schools are inclusive environments which value all students and families regardless of race, colour, ancestry, place of origin, religion, marital status, family status, physical or mental disability, sex or sexual orientation, or gender identity/expression.

Guided by the [First Peoples Principles of Learning](#), the District supports strategies that rely on prevention and intervention, so students learn to solve their problems in peaceful ways, value diversity, and defend human rights.

Students are expected to learn and mature as they move through successive grades. As such, the expectations and consequences increase with regard to personal responsibility and self-discipline when a student breaches the District Code of Conduct. Expectations and consequences are student specific and developmentally appropriate.

Priority Learners (Indigenous students, students identified as having special needs, Children and Youth in Care, students with complex mental health needs and students facing systemic barriers) require special consideration, consultation, and planning.

Where a breach of this Student Code of Conduct amounts to a violation of the law, the District and the school will co-operate with the police and other appropriate authorities.
