

LANGLEY SCHOOL DISTRICT CODE OF CONDUCT

Purpose and Rationale :

The Langley School District Board of Education believes that, based on discussions with staff, parents and students, each Principal should establish the general school rules and discipline practices which reflect the school and District's expectations for students. These rules will be consistent with this District Code of Conduct, District Graduate Profile and related policies, and will be filed on an annual basis with the zone Assistant Superintendent for their school

Through the writing of a District Code of Conduct, The Board expects school communities to maintain and develop a positive climate in which:

- the District Graduate Profile is understood by students and staff which guides the development of the District's behaviour expectations
- all students and staff feel safe, valued, and trusted, and have the opportunity to develop, assume and maintain responsibility and self-motivation
- there is a collaborative effort to learn and a feeling of mutual respect among staff, students and parents
- an on-going communication exists with parents that both encourages and provides increased opportunities for developing active and constructive parental involvement in their children's education

The Board supports school administration and staff in the maintenance of proper order and discipline that is consistent with Board policy, and believes that the responsibility for student discipline in school is shared among students, staff and parents.

Students have a responsibility to respect the rights and dignity of others and to become actively and productively involved in their own academic learning and social growth.

Educators have a responsibility to establish a positive school climate in which structure, support and encouragement assist the students in developing a sense of self-discipline and responsibility.

Parents have a responsibility to establish a positive learning atmosphere in the home, to be aware of school policies and procedures to support the school in the development of restorative practices and a peaceful community.

The Code of Conduct applies to behaviour both on school premises and off school premises where the activities are organized or sponsored by the school, or activities will have an impact on the school environment.

How Our Graduate Profile Directs Our Expectations for Acceptable Behaviour:

The Graduate Profile is the vision statement for the District. Its purpose is to describe the attributes of students graduating from Langley schools. All curriculum, administrative and teacher practice, assessment, evaluation and reporting processes, will be directed toward the achievement of this vision.

Progression of Expectations

It is recognized that discipline is learned over time with the modeling and support of the family and school community. Therefore, the youngest and least mature of our students require more time to learn how to behave in acceptable ways. Every situation has unique circumstances. As students mature it is expected that students demonstrate greater self-discipline and increasingly better performance aligned with the Graduate Profile.

CELL PHONES

Some students are provided with phones by their parents as a safety measure where students phone their parents to notify them that they have arrived safely at school. Phones must then be turned off and stored away when on the school grounds.

Consequences

At James Kennedy our approach to discipline is based upon the following:

- That misbehaviour on the part of students will occur
- That misbehaviour for the most part can be effectively dealt with through positive interaction and intervention
- That unacceptable behaviour will not be tolerated

Each case of misbehaviour will be dealt with individually. The severity and frequency of unacceptable conduct as well as the age and maturity of students is considered in determining appropriate disciplinary action. Students participate in the development of meaningful consequences for misbehaviour. Generally, recognition of the inappropriateness of the behaviour and commitment to improve is all that is required.

Minor infractions will be handled on the spot in the classroom, halls and playground. The consequences for unacceptable behaviour range from:

- “Time Out” to think about the behaviour
